In the context of their ordinary activity, MZBG and some of its subsidiaries have stipulated loan agreements which, as is customary in the market practice of international agreements, confer on the lending parties the right to withdraw from or terminate such agreements in the case of a change of control of one of the said parties.

(i) *Loan agreement signed on 9 November 2005 between the subsidiary Massimo Zanetti Beverage SA, MZB and Société Européenne de Banque SA, as subsequently amended multiple times, most recently on 13 May 2013*

On 09 November 2005, the subsidiary Massimo Zanetti Beverage SA, in its quality as borrower (the "Borrower") with MZB, in the quality of guarantor and Société Européenne de Banque SA in the quality of lender ("Société Européenne"), stipulated a loan agreement governed by the laws of Luxembourg, pursuant to which Société Européenne made available to the Borrower a credit line of € 70,000,000 (the "Euro Credit Line") and a credit line of USD 15,000,000 (the "Dollar Credit Line") (the "Société Européenne Loan Agreement") with an interest rate equal to - for the Euro Credit Line - the 6 month Euribor rate on a 360 day convention plus a spread of 1.45% and - for the Dollar Credit Line - a 6 month Libor rate plus a spread of 1.45%.

The Société Européenne Loan Agreement was subsequently modified on 29 November 2005, 20 February 2008, 23 December 2011 and most recently on 13 May 2013. On this date, the amounts owed for the Euro Credit Line amounted to € 21,000,000 while those owed for the Dollar Credit Line amounted to USD 4,500,000.

With the amendment agreement of 13 May 2013, the parties have agreed to modify the Société Européenne Loan Agreement in order to (i) enable the Borrower to repay in advance all amounts owed under the USD Credit Line; (ii) replace the same with a new credit line of a maximum amount of € 3,000,000 (the "New Credit Line" and, together with the Euro Credit Line, the "Credit Lines"); (iii) extend the expiry of the Société Européenne Loan Agreement from 30 September 2015 to 31 May 2018; and (iv) adjust the interest rate which, from 31 May 2013, has become equal to Euribor plus a margin of 4.95% (the "Modified Société Européenne Loan Agreement"); thus the amount owed for the Credit Lines on the execution date of the Modified Société Européenne Loan Agreement totalled € 24,000,000 (the "Total Amount").

Pursuant to the Modified Loan Agreement, Société Européenne has the right to demand immediate repayment by the Borrower of all amounts owed under the Credit Lines in the case of loss of control of MZBG or of any of its subsidiaries by the controlling members of the same on 13 May 2013.

(ii) *Loan Contract signed on 17 June 2010 between MZB and Monte dei Paschi di Siena, amended on 28 October 2013*

Pursuant to the MZB - MPS Loan Agreement, MZB has agreed to repay the loan within 7 years through the payment of 10 twice-yearly instalments inclusive of capital and interest, according to an amortisation plan attached to the MZB - MPS Loan Agreement.

On 14 March 2011, MZB and MPS stipulated a rate swap contract, pursuant to which the parties had undertaken to exchange, at predefined dates and on the basis of predetermined notional amounts, a fixed rate against a variable rate; specifically, MZB agreed to pay MPS a fixed rate of 3.24% on a principal of € 20,000,000 (corresponding to the loan granted by the MZB - MPS Loan Agreement) in return for the payment by the latter of a variable rate equal to the 6 month Euribor rate, corresponding to the interest rate agreed in the MZB - MPS Loan Agreement (the “First MZB - MPS Swap Agreement”).

On 28 October 2013, certain terms and conditions of the MZB - MPS Loan Agreement were modified; specifically the expiry date was extended from 30 June 2017 to 31 December 2018 and the margin applicable to the loan was increased from 1.50% to 3% (the “Modified MZB - MPS Loan Agreement”).

Pursuant to the Modified MZB - MPS Loan Agreement, MZB agreed to repay € 17,000,000, a sum equal to the remaining credit extended to MZB by MPS, on the date of 28 October 2013, through the payment of 11 twice-yearly instalments according to the amortisation plan attached to the Modified MZB - MPS Loan Agreement, by 31 December 2018.

Without prejudice to the afore-mentioned amendments, all terms and conditions stipulated by the MZB - MPS Loan Agreement continue to apply.

In order to adapt the amendments to the MZB - MPS Loan Agreement to the First MZB - MPS Swap Agreement, MZB and MPS signed a new rate swap contract (the “Second MZB - MPS Swap Agreement”) which replaced and superseded the terms of the First MZB - MPS Swap Agreement, pursuant to which the parties were obliged to exchange, on predefined dates and principles, a fixed rate against to variable rate; specifically, MZB agreed to pay MPS a fixed rate of 3.20% on a capital of € 17,000,000 in return for the payment by the latter of a variable rate equal to the 6 month Euribor rate, corresponding to the interest rate agreed in the Modified MZB - MPS Loan Agreement.

Pursuant to the Second MZB - MPS Swap Agreement, MPS shall have the right to withdraw from the contract in the case of a significant variation to the MZB certificate of incorporation or ownership structures.

(iii) Loan contract signed on 15 October 2013 between MZB and UBI - Banca Popolare Commercio e Industria

On 15 October 2013, MZB and UBI - Banca Popolare Commercio e Industria (“UBI”) stipulated a loan agreement pursuant to which UBI granted to MZB a loan of € 12,000,000, due to expire on 15 October 2018 (the “UBI Expiry Date”) and with a variable interest rate equal to the value of the 3 month Euribor rate and a margin of 3.5% (the “UBI Loan Agreement”).

Pursuant to the UBI Loan Agreement, MZB agreed to repay the loan through the payment of 10 equal twice-yearly instalments in arrears, inclusive of capital, interest and fees, according to an amortisation plan attached to the UBI Loan Agreement.

Pursuant to the UBI Loan Agreement, UBI shall have the right to accelerate the loan and/or terminate the UBI Loan Agreement in the case of a change of the controlling shareholding structure of MZB.

4 BOARD OF DIRECTORS

4.1 APPOINTMENT AND REPLACEMENT (ex art. 123-bis, para. 1, letter l), Consolidated Law on Finance)

The appointment and replacement of Directors is governed by the regulations in force, as enacted and supplemented, to the permitted extent, by the Bylaws in accordance with the provisions of the Code.

Pursuant to art. 13 of the Bylaws, the Company is managed by a Board of Directors made up of 7 or 15 members. Prior to the appointment thereof, the Shareholders' Meeting shall determine their number within the limits indicated above. The Directors shall be appointed for a period of three years, or for the period established at the time of appointment in any case not exceeding three years, and may be re-elected. Appointment to the office of Director shall be subject to the requisites established by law, the Bylaws and other applicable provisions.

The provisions of the Bylaws governing the composition and appointment of the Board of Directors shall be such as to ensure compliance with the provisions laid down in art. 147-ter of the Consolidated Law on Finance and its implementing rules, as briefly described below.

In particular, art. 13 of the Bylaws provides that the Directors shall be appointed by the Shareholders' Meeting, in compliance with regulations on gender balance in force from time to time, on the basis of lists submitted by shareholders in compliance with the law and regulations in force from time to time, in which no more than 11 candidates in possession of the requisites prescribed by laws and regulations in force from time to time must be listed through the assignment of a consecutive number.

The Board of Directors must include at least 3 (three) Directors who meet the independence requirements established by the law or regulations, including the Code.

Each list must indicate which candidates are in possession of the independence requirements established by the law and the regulations in force from time to time. The independent candidates in each list shall be indicated with the first consecutive numbers, which must be listed in alternation (e.g. numbers 1, 3, 5 etc., or 2, 4, 6 etc. of the list) with the non-independent candidates. The lists must be filed at the company offices and published in accordance with applicable laws.

Each shareholder can submit or concur in the submission of a single list and each candidate can be included in a single list only, under penalty of ineligibility.

The right to submit lists is vested only in shareholders who, alone or together with other shareholders, hold shares representing at least 2.5% of the capital or such different percentage of share capital as established by the law and the regulations in force from time to time.

Together with each list, within the terms provided by the law and the regulations in force from time to time, the following must be filed: declarations by which individual candidates accept their nominations and certify, under their own responsibility, the non-existence of causes of ineligibility and incompatibility, as well as the existence of the requirements prescribed by current law for their respective offices. Together with the declarations, a curriculum vitae for each candidate showing his personal and professional characteristics and indicating whether the candidate qualifies as independent under applicable regulations, as well as codes of conduct on corporate governance as adopted by the Company, shall be filed.

Lists presenting three or more candidates must contain candidates of both genders, so that at least one third (rounded up) of the candidates belong to the less represented gender.

Lists for which the above requirements are not satisfied will be deemed not submitted.

Appointed directors shall promptly notify the Board of Directors loss of the independence requirements and of the occurrence of reasons for ineligibility or incompatibility.

Each entitled party can cast its vote for one list only.

After the vote, the appointed candidates will be those from the two lists that will have obtained the higher number of votes, according to the following criteria:

- (a) from the list that receives the majority of votes, a number of directors equal to the total number of members to be elected, except 1 (one) will be taken in the order in which they appear in the list;
- (b) the remaining director will be taken from the second list that has obtained the highest number of votes (the “Minority List”) in the shareholders’ meeting, which is not connected in any way, even indirectly, with those who submitted or voted for the list resulting the first in light of the number of votes received.

In case of parity of list votes, a new vote of the entire Shareholders’ Meeting shall take place and the candidates who will obtain a simple majority of votes will result appointed. If at the end of the voting procedure a sufficient numbers of directors satisfying the independence requirements provided for by the law and regulations in force does not result appointed, the candidate who is not in possession of these requirements and who has been appointed as the last in consecutive order from the list which has obtained the highest number of votes will be excluded and will be replaced by the next candidate possessing the independence requirements from the same list as the excluded candidate. This procedure will be repeated, if necessary, until the number of independent directors to be appointed are in fact appointed.

If, with the candidates appointed in accordance with the above described procedures, the composition of the Board of Directors does not conform to the applicable pro tempore regulations regarding gender balance, the candidate of the more represented gender elected as last in consecutive order from the list which has obtained the highest number of votes shall be replaced by the first non-elected candidate of the less represented gender from the same list. This substitution procedure shall take place until the composition of the Board of Directors conforms to applicable pro tempore regulations regarding gender balance.

If the above procedure does not achieve the intended result, replacement shall take place by resolution of the Shareholders’ Meeting to be taken by relative majority, subject to presentation of candidates from the less represented gender.

In the event of submission of a single list, the directors will be appointed from the list, provided that they have obtained the approval of a simple majority of the votes; if the directors so appointed are not of a number corresponding to the number of Board of Directors’ members as determined by the Shareholders’ Meeting, or if no list is submitted, or in the event that the list submitted does not permit the appointment of independent directors in compliance with statutory and regulatory provisions in force, the Shareholders’ Meeting will resolve with legal majorities, subject to compliance with applicable regulations on gender balance.

The list voting procedure applies only for appointment of the entire Board of Directors.

If during the year one or more of the Directors cease to hold office, the procedure pursuant to art. 2386 of the Civil Code shall apply. If one or more of the ceased Directors had been taken from a list containing also the names of candidates not elected, the replacement is effected by appointing, in consecutive order, candidates drawn from the same list of the ceased Director

and who are still eligible for appointment and are willing to accept the office, or in the absence of such candidates in the list or their unavailability, by appointing another candidate proposed by the Directors drawn from the same list of the ceased Director. In any case, the replacement of ceased Directors is made by ensuring presence of the necessary number of Directors satisfying the independence requirements established by the law and compliance with applicable pro tempore regulations on gender balance. If a majority of the Directors appointed by the Shareholders' Meeting ceases to hold office, the entire Board of Directors is considered as having resigned and the Shareholders' Meeting must be called without delay by the Directors still in office for the appointment of a new Board.

The Shareholders' Meeting may, also during the mandate, vary the number of members of the Board of Directors within the limits mentioned above, and deal with the relevant appointments. The terms of the Directors thus elected shall expire with those in office.

The Bylaws does not require independence requirements in addition to those established by art. 148, paragraph 3, of the Consolidated Law on Finance, nor integrity requirements other than those prescribed by the current legislation.

The Bylaws do not provide professional expertise requirements for appointment to the office of Director.

The Company is not subject to provisions concerning the composition of the Board of Directors in addition to those laid down in the Civil Code and in the Consolidated Law on Finance.

Succession plans

In consideration of the statutory and legal rules applicable for the appointment and renewal of the Board and taking into account the current composition of the Board and of the delegation of attributed powers, the Board of Directors has considered the adoption of a formal succession plan for Executive Directors to be currently unnecessary.

Accumulation of offices of director and statutory auditor in other companies

In line with the recommendations of the Corporate Governance Code, on 3 February 2016 the Board of Directors, on proposal of the Nominating and Remuneration Committee, defined its policy concerning the maximum number of offices as director and statutory auditor deemed compatible with the effective performance of the office of Director of the Company, also taking into account the participation of Directors in committees within the Board.

Under this policy, MZBG Directors accept the office when they believe they can devote the time necessary to the diligent performance of their duties, also taking into account the number of appointments held in management and control bodies of the following other companies (“**Significant Companies**”):

- (i) companies with shares listed on regulated markets, including foreign markets;
- (ii) financial, banking or insurance companies;
- (iii) large companies, meaning companies with a Net Equity (on an individual basis, or where consolidated accounts are prepared, on a consolidated basis) equal to or greater than the consolidated Net Equity of MZBG for the year of reference, not belonging directly or indirectly to the MZB Group.

In particular, the policy approved by the Board provides that:

- (a) each Executive Director: cannot hold the office of executive director in any Significant Company and may serve as a non-executive director or Statutory Auditor in no more than 2 (two) Significant Companies.
- (b) each non-executive director (whether independent or not) can serve as Director or Statutory Auditor in no more than eight (8) Significant Companies.

For the purposes mentioned above, all positions held in any Significant Company belonging to the MZB Group shall be calculated only once.

The MZBG Board of Directors has the power to grant derogations, also of a temporary nature, enabling MZBG Directors to hold positions in the administrative and auditing bodies of Significant Companies, cumulatively exceeding the limits indicated above.

Directors are required to promptly inform the MZBG Corporate Affairs Secretariat of any changes concerning the positions held in Significant Companies.

The MZBG Board of Directors, based on the information received from each Director, records and reports in the Report on Corporate Governance any additional positions held by MZBG directors in Significant Companies.

Based on the information provided by the Directors to the Company - verified by the Secretariat of the Board of Directors and the Nominating and Remuneration Committee - the number of positions currently held by MZBG directors in administrative and auditing bodies of Significant Companies is in line with the policy described above. The information on positions held by MZBG directors in administration and auditing bodies of Significant Companies are shown in the table attached to this Report.

Induction programme

Having considered the skills and experience of the Company's Directors and Auditors in office since July 2014, the Chairman has not deemed necessary to implement specific induction programme in addition to the specific training and update initiatives carried out in view of the listing for the benefit of the Directors and Auditors. Nevertheless, the Chairman of the Board of Directors of the Issuer ensures that the Directors can acquire sufficient knowledge of the business dynamics of the MZB Group, as well as of the MZB Group's reference market, in order to enable them to participate actively in the decision-making processes of the Company.

10 THE INTERNAL AUDIT AND RISK MANAGEMENT SYSTEM

The Internal Audit and Risk Management System adopted by MZBG, in accordance with the recommendations of Article 7 of the of Corporate Governance Code and sector best practices, is the set of rules, procedures and organizational structure aimed at enabling, through an adequate process of identification, measurement, management and monitoring of the main risks to which the Company and its subsidiaries are exposed, a sound and correct management of the Company coherent with the identified strategic objectives.

The Internal Audit and Risk Management System involves each with its own responsibilities, the following:

- the Board of Directors that defines the guidelines and assesses the adequacy of the Internal Audit and Risk Management System;
- the Audit and Risk Committee with the tasks, in addition to the duties described in the preceding Paragraph 9, of supporting, with appropriate supporting activities, the assessments and the decisions of the Board of Directors relating to the system, and the decisions relating to the approval of the periodical financial reports;
- the Director in Charge of the Internal Audit and Risk Management System, Dr Massimo Mambelli with the task, in addition to the duties specified in detail in the next Paragraph 10.1, of identifying the main Company's risks and implementing the guidelines defined by the Board of Directors;
- the Head of Internal Audit, Fidital Revisione S.r.l., represented by Shareholder Dr Gerardo Diamanti, with the task of checking that the Internal Audit and Risk Management System is working and that it is adequate, in accordance with the duties that are described in detail in the next Paragraph 10.2;
- the Board of Statutory Auditors that monitors the effectiveness of the Internal Audit and Risk Management System.

Considering the complexity of management activities and taking into account that the assumption of risk represents a fundamental and unavoidable component of a business activity, the Board of Directors has evaluated the importance of advanced identification and mapping of the main risks before they become manifest, and to adopt appropriate tools to manage them and to reduce their impact.

The Company has therefore set up a risk assessment process which is the basis for identifying the main corporate risks, the checks and safeguarding activities for each risk and the assessment of each risk. The setting up of risk assessment was inspired by the CoSO Report models - Integrated Framework and CoSO Enterprise Risk Management issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Consistent with such purpose, the risk management model that the Company is implementing has the objective of defining, on a reasonable basis, intervention priorities, taking into account the size of the Company and the Group and the business priorities in order to reduce residual risk to an acceptable level.

The MZBG Risk Management model is in addition:

- extended to all types of potentially significant risk;

- focused on risks that are most relevant depending on their potential to jeopardize the attainment of strategic objectives or adversely affect strategic corporate assets;
- based on a quantitative approach i.e., it is based, wherever possible, on a specific measurement of risks impact on the expected financial and business results on the basis of their likelihood of occurrence;
- integrated in the business and decision making processes and, in particular, in the strategic operational planning process and in the investment projects.

On 2 March 2016 the Board of Directors, upon proposal of the Director in Charge of the Internal Audit and Risk Management System and having received a favorable opinion from the Audit and Risk Committee and the Board of Statutory Auditors, approved the document (entitled “Risk Assessment 2016”) that identifies the main business risks (the “risk assessment” phase), describes the activities and the controls that are set up as a safeguard against each risk and assesses each risk (the “risk management” phase).

MZBG Risk Assessment 2016 takes into account four macro-categories of risk that enable the management to identify the objectives, the control model and the management tools:

- business and strategic risks, i.e. the current and future risks of reductions of profits or assets deriving from changes in the operational context or wrong business decisions, inadequate implementation of decisions, poor reactivity to changes in the context of competition;
- operational risk, i.e. the risk of suffering losses due to the inadequacy or inefficiency of procedures, of human resources or internal systems, or due to external events. Such definition includes legal risk; strategic and reputational risk are not included;
- regulatory risk, i.e. the risk of incurring administrative fines or judicial sanctions, significant financial loss or damage to reputation as a result of breaking mandatory laws or regulations or self-regulatory codes (e.g. Bylaws, codes of conduct or corporate governance codes);
- information risk, i.e. risk associated with the possibility that information used for taking strategic, operational or financial decisions and/or information made available to the public, whether or not of strategic, operational or financial nature, turns out to be insufficient or incorrect thereby invalidating a correct deployment of the decision making process and/or diminishing the appreciation of the Group by the market.

It is a duty of the Board of Directors to coordinate and supervise the risk management process so that risks that are taken in the context of the business activity are coherent with the approved business strategies, by defining the threshold of acceptable risk.

The Audit and Risk Committee shall have the duty to assist the Board of Directors in:

- (i) identifying and assessing, at least once a year, the main risks of the Company and its subsidiaries so that they can be adequately monitored;
- (ii) define and update, at least once a year, the risk mitigation plans and in general the risk management plans in order to maintain the overall level of exposure to risk within an acceptable threshold.

The Director in Charge of the Internal Audit and Risk Management System shall have the duty to:

- (i) identify the main corporate risks, taking into account the characteristics of the business and the operations carried out by the Company and the Group;
- (ii) take care of the design, implementation and management of the Internal Audit and Risk Management System and continuously check its adequacy and effectiveness.

With reference to the outcome of the activities that were carried out, the Director in charge of the Internal Audit and Risk Management System and the Audit and Risk Committee, have highlighted, to the extent of their responsibility, that the current Internal Audit and Risk Management System is adequate having regards to the size and the operating and organizational structure of the Group.

In the context of the above descriptions with reference to the document entitled “Risk Assessment 2016”, on 2 March 2016 the Board of Directors of the Company, having acquired the opinion of the Audit and Risk Committee and the Director in charge of the Internal Audit and Risk Management System, concluded that the Internal Audit and Risk Management System is substantially adequate, by highlighting the system’s capability to mitigate each of the risks described above.

Moreover, on 2 March 2016, the Board of Directors, after consultation with the Board of Statutory Auditors and the Director in charge of the Internal Audit and Risk Management System approved the 2016 work plan drawn up by the Head of Internal Audit.

Main characteristics of the Internal Audit and Risk Management System in relation to the financial reporting process pursuant to Paragraph 2, letter b) of Article 123-bis of the Consolidated Law on Finance

The Internal Audit System is an integral part of the financial reporting process and is part of the wider context of the Internal Audit and Risk Management System. In general, the Company's internal audit system is aimed at ensuring safeguarding/protection of corporate assets, compliance with the laws and regulations, efficiency and effectiveness of business operations as well as reliability, accuracy and timeliness of financial reporting.

The internal audit system on financial reporting is focused on identifying and assessing events that, where occurring, may jeopardize the credibility, accuracy, reliability and timeliness of financial information and the ability of the process of drawing up financial statements as a whole of producing financial information in accordance with the applicable accounting principles.

The approach for developing the control model for the financial reporting process was inspired by international standards, the sector best practices and the guidelines issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The administrative and accounting procedures for drawing up the annual financial statements and any other financial report are established by the manager in charge of the preparation of corporate accounting documents (the “**Designated Manager**”) who, together with the Chairman of the Board of Directors, certify the adequacy and actual application of such procedures at the time of the approval of the annual financial statements and the semi-annual financial statements.

a) Existing Internal Audit and Risk Management System phases related to the Financial Reporting Process

The Internal Audit and Risk Management System of the Group defines a methodological approach in relation to the financial reporting process that is articulated in three phases:

1. risk assessment to identify and assess risks related to corporate data reporting;
2. identification of controls for the identified risks;
3. periodical assessment of the controls identified in the previous phase.

Phase 1: Risk Assessment

Risk assessment represents the process of identification of risks related to the accounting data reporting (risk of unintentional error or fraud that can have an effect on financial reporting), and is carried out under the responsibility of the Designated Manager at least once a year. In the context of such process, a set of objectives that the system intends to achieve are identified for the purpose of ensuring a true and correct representation of such reporting.

The process described above was conducted by the Designated Manager of MZBG for the purpose of determining the perimeter of “relevant” companies in terms of potential impact on corporate reporting, the balance sheet items and information that are significant for such purpose and the associated company processes.

Phase 2: Identification of checks for the identified risks

In view of companies, balance sheet items and processes deemed relevant, the identification of the controls that are necessary to mitigate the risks identified in the previous phase is made by taking into account the control objectives associated with financial reporting. In particular, the balance sheet items that are classified as relevant are linked with the underlying company processes for the purpose of identifying controls that are suitable to address the objectives of the internal audit system for financial reporting.

On the basis of the methodological approach described above, MZBG initiated a process for the implementation of an accounting and administrative control system, the goal of which is the analysis of the development of the control activities that the various company departments must set up within the framework of their own responsibility. The modular process that MZBG adopted enables the implementation of the control “Model” adopted by MZBG, as the Group parent company, for all the relevant companies on the basis of an implementation plan that is prepared by the Designated Manager and approved by the Audit and Risk Committee.

Phase 3: Periodical assessment of the controls identified in the previous phase

Periodical assessment activities of the accounting and administrative control system are carried out at least once a year for the purpose of ensuring an adequate financial reporting in the context of the drafting of the statutory and consolidated annual financial statements. Controls are subject to periodical assessment for adequacy (control design) and actual operation (execution of control activity in line with the control design) through specific testing, according to best practice in such context.

When carrying out the above activities, the Designated Manager will consider, on a case by case basis, the involvement of the corporate functions and subsidiary representatives as he may deem necessary.

Furthermore, on a half yearly basis, the Designated Manager prepares a summary report with the results of the assessment of the controls for the previously identified risks on the basis of the monitoring activities that were carried out. Once the summary report has been shared with the Managing Director, it is delivered to the Board of Statutory Auditors of MZBG, the Audit and Risk Committee and the Board of Directors.

(b) Roles and Functions involved

The internal audit and risk management system of the financial reporting process is coordinated and managed by the Designated Manager, Dr Massimo Zuffi, appointed by the Board of Directors in accordance with the applicable laws and the Bylaws.

The Designated Manager avails himself of the *Internal Audit* function to carry out checks on the operation of the control system, and he is supported by function managers who, according to their area of responsibility, ensure a comprehensive and reliable flow of information for the purpose of preparing financial documentation.

The Designated Manager is directly responsible for checking that administrative, accounting and financial management activities are promptly and correctly carried out, given that it is his duty to continuously supervise all monitoring and assessment phases of the risks associated with the financial reporting process.

The Designated Manager periodically informs the Board of Statutory Auditors in relation to the adequacy, including organizational adequacy, and reliability of the administrative and accounting system and reports to the Audit and Risk Committee and the Board of Directors on the activities carried out and on the effectiveness of the Internal Audit System with reference to the risks associated with financial statements reporting.

At the end of all the activities and controls, the Designated Manager issues the declarations and attestations provided for in Article 154-*bis* of the Consolidated Law on Finance (TUF). In particular, pursuant to:

- (i) Article 154-*bis*, Paragraph 2 of the Consolidated Law on Finance, acts and communications of MZBG, addressed to the general public in relation to accounting information, including communications issued in the course of the financial year, shall be accompanied by a written declaration of the Designated Manager attesting the consistency thereof with documentary evidences and the accounting books and records;
- (ii) Article 154-*bis*, Paragraph 5 of the Consolidated Law on Finance, with reference to the annual financial statements, the semi-annual financial statements and the consolidated financial statements, the Designated Manager and the Managing Director shall issue a report for the purpose of attesting to:
 - a) the adequacy and the actual application of administrative and accounting procedures during the period covered by the documents;
 - b) the fact that the documents are drawn up in accordance with international accounting principles recognized by the European Union as per regulation (CE) No. 1606/2002 of the European Parliament and the Council dated 19 July 2002;

- c) the fact that the documents are consistent with the results of accounting books and records;
- d) the suitability of the documents to provide a true and fair representation of the balance sheets, profit and loss account and financial position of the issuer and all the subsidiaries included in the consolidation;
- e) the fact that, as far as the annual financial statements and the consolidated financial statements are concerned, the report on operations includes a reliable analysis of the performance trend, the result of operations and the situation of the issuer together with the subsidiaries included in the consolidation and a description of the main risks to which they are exposed;
- f) the fact that, as far as the semi annual financial statements are concerned, the intermediate report on operations contains a reliable analysis of information required by Paragraph 4 of Article 154-ter of the Consolidated Law on Finance (TUF).

The Oversight Committee reported to the Board of Directors on its activity carried out during the Financial Year in a report dated 29 February 2016.

The boards of directors of the Italian subsidiaries Segafredo Zanetti S.p.A., Segafredo Zanetti Coffee System S.p.A. and La San Marco S.p.A., by resolutions dated 13 November 2015, 25 November 2015 and 26 November 2015, respectively, approved the adoption of their organizational and management models in accordance with Legislative Decree No. 231 of 8 June 2011, which are similar in nature to the model adopted by MZBG, and proceeded to appoint their own Oversight Committee.

10.4 EXTERNAL AUDITORS

In accordance with Article 13 of Legislative Decree No. 39 of 27 January 2010, the ordinary Shareholders' Meeting of the Company on 31 March 2015, upon proposal of the Board of Statutory Auditors, resolved to entrust to the external auditor PricewaterhouseCoopers S.p.A., which has its registered office at Via Monte Rosa n. 91, Milan and is listed at no. 43 in the special register of external auditors kept by the Ministry of Economy and Finance and in the Register of Certified Auditors under registration no. 119644, the auditing of statutory annual financial statements and of the Group consolidated financial statements for the financial years closing from 31 January 2015 to 31 January 2023; the limited auditing of the semi annual consolidated financial statements for the same nine-year period, and overseeing the correct keeping of accounts and reporting of management activity in account entries during those financial years.

10.5 MANAGER IN CHARGE OF THE PREPARATION OF CORPORATE ACCOUNTING DOCUMENTS AND OTHER COMPANY ROLES AND DUTIES

On 15 July 2014, the Board of Directors, in compliance with Article 154-*bis* of the Consolidated Law on Finance and with the requirements set forth in Article 19.4 of the Bylaws, having received the favorable opinion of the Board of Statutory Auditors, appointed Mr Massimo Zuffi as manager in charge of the preparation of corporate accounting documents ("**Designated Manager**"), effective as of the Date of Commencement of Trading.

Article 19.4 of the Bylaws states that the Designated Manager is appointed, having received the mandatory yet non-binding opinion of the Board of Statutory Auditors, from among individuals with significant professional experience in the sector of accounts, economy and finance, for at least five years.

Without prejudice to point 10 above, in accordance with the laws in force, the Designated Manager is entrusted to:

- (i) lay down appropriate administrative and accounting procedures for drawing up statutory and consolidated financial statements, as well as any other financial communications;
- (ii) issue written statements certifying that Company acts and communications released to the market concerning the Company's account information (including infra-annual) are consistent with the documentary evidences, and accounting books and records;
- (iii) provide, together with the Managing Director, the attestations pursuant to Article 154-*bis*.5 of the Consolidated Law on Finance, by way of a report issued according to the model established under the CONSOB regulations, to be attached to the annual financial statements, the semi annual financial statements and the consolidated financial statements;
- (iv) participate in meetings of the Company's Board of Directors where the agenda includes examination of the Company's economic/financial data;

- (vi) issue twice-yearly reports to the Board of Directors, to the Audit and Risk Committee and to the Board of Statutory Auditors on the activities carried out.

At the time of his appointment, the Board attributed to the Designated Manager all powers and resources needed to carry out the duties attributed to him under the laws in force and the Bylaws, including direct access to all functions, offices and information necessary for the production and verification of account, financial and economic data, without the need for any additional authorization.

As of the Report Date, the Company's Board of Directors has not appointed any additional internal audit and risk management managers other than those described above.

10.6 COORDINATION BETWEEN SUBJECTS INVOLVED IN THE INTERNAL AUDIT AND RISK MANAGEMENT SYSTEM

During the 2015 financial year, MZBG did not formalize specific procedures for coordination between subjects involved in the internal audit and risk management system, considering that the existing internal procedures and regulations allow for an efficient performance of control activities.

It should be noted that, since the Date of Commencement of Trading, the committees formed within the Board of Directors (the Audit and Risk Committee, the Nominating and Remuneration Committee and the RPT Committee) have all retained the same composition of independent directors, ruling out the need to establish coordination procedures.

Regarding the subjects and departments involved in the internal audit and risk management system, it should be noted that, in compliance with the principle of segregation of responsibilities, the rules of all the committees expressly provide that the Chairman of the Board of Statutory Auditors and one Standing Auditor are to be invited to participate in the meetings of those committees, and it is the faculty of the committees to invite to their meetings other subjects whose presence is considered useful in relation to the matters to be discussed.

Notwithstanding the foregoing, for the 2016 financial year, MZBG plans to organize two annual sessions for coordination between subjects involved in the internal audit and risk management system in order to maximize the efficiency of the system and to minimize any overlapping of activities.

11 INTERESTS OF DIRECTORS AND RELATED PARTY TRANSACTIONS

In accordance with art. 25 of the Bylaws, the Company approves transactions with related parties in compliance with the provisions of law and regulations in force, the provisions of the Bylaws and the procedures adopted to this end.

On 15 July 2014, in the context and of and for the purposes of the listing, the Board of Directors approved a draft of the “Procedure for Related Party Transactions” pursuant to article 2391-*bis* of the Civil Code and the Regulations on Related-Party Transactions.

Such procedure, following the successful completion of the listing, was submitted to the Related Parties Committee, consisting solely of independent Directors, and following their favorable opinion after transposition of certain integrations, was definitively approved by the Board of Directors by resolution of 28 August 2015 (the “**RPT Procedure**”).

In accordance with the Regulations on Related-Party Transactions, the RPT Procedure regulates the methods of scrutiny and approval of transactions with related parties defined as being of greater significance on the basis of the criteria set out in the Regulations on Related-Party Transactions, and of related party transactions defined as being of lesser significance, namely those different from transactions of greater importance and from transactions of modest amounts under the Regulations on Related-Party Transactions.

Considering that the transactions of greater significance with related parties are those in which the significance index of the counter value or of the assets or liabilities exceeds the threshold of 5%, in order to facilitate a timely identification and continuous monitoring thereof, the RPT Procedure entrusts to the manager in charge of the preparation of corporate accounting documents the task of:

- (i) periodically identifying capitalization values on the basis of: data published by Borsa Italiana S.p.A; the Group’s consolidated net equity; and the last published periodic accounting document, on the basis of which the significance indices are calculated;
- (ii) registering and updating the counter value of related party transactions which are homogeneous by nature or fall under a unified plan, and are carried out with the same related party of the Company or with entities related to the latter and to the Company, without prejudice to the application of the exemptions referred to in art. 13 of the RPT Procedure.

The RPT Procedure is not applied to transactions that have an amount or a counter value not exceeding € 150,000.

The Company, being recently listed, avails itself of the derogation granted by article 10 of the Regulations on Related-Party Transactions; therefore the approval of related-party transactions of greater significance is made in accordance with the procedure laid down for the approval of related-party transactions of lesser importance.

The RPT Procedure shall be adapted to the provisions thus derogated within ninety days from the first renewal of the Board of Directors after the close of the second financial year after the year of listing.

Without prejudice to the disclosure obligations provided for by the law and the RPT Procedure, related party transactions must be approved by the body responsible for the adoption of the decision pursuant to the law and the Bylaws, after obtaining a reasoned and non-binding opinion on the appropriateness and substantive correctness of the conditions relating to the transaction, expressed by a committee (the “**RPT Committee**”).

The RPT Committee, established by resolution of the Board of Directors on 15 July 2014 effective as of the Date of Commencement of Trading, is composed of the following three independent Directors: Annapaola Tonelli, Roberto H. Tentori and Josè Fernando Pinto dos Santos.

The activities of the RPT Committee are coordinated by the Chairman Roberto H. Tentori.

Following the Date of Commencement of Trading and during the Financial Year, the RPT Committee met on three occasions with a meeting duration of approximately two hours. The actual participation of each member in RPT Committee meetings is shown in **Table 2** in the Appendix.

It is expected that there will be 4 meetings in 2016 of which 2 have already been held.

The above meetings of the RPT Committee were also attended by the Chairman of the Board of Statutory Auditors (2/3) and, upon specific invitation, the Chief Financial Officer (2/3).

The RPT Committee has the task of assisting the Board of Directors, with propositional and consultative functions, in its assessments and decisions, by expressing a reasoned opinion on the Company's interest in implementing transactions falling within the Procedure for Transactions with Related Parties of the Company, and on the appropriateness and substantive correctness of the relative conditions.

The RPT Committee shall, in particular:

- (a) analyze the content of the procedure prepared by the Company, assessing the legal compliance thereof and the adequacy thereof to the management complexity of the Company;
- (b) express and convey to the Board of Directors a reasoned binding opinion setting out the results of the assessment referred to in point (a);
- (c) with regard to transactions of lesser significance to be carried out by the Company with an related entity:
 - (i) evaluate the Company's interest in implementing the proposed transaction;
 - (ii) evaluate the appropriateness and substantive correctness of the conditions of the proposed transaction;
 - (iii) express and convey to the Board of Directors a reasoned, non-binding opinion that explains the outcomes of the evaluations referred to in points (i) and (ii) above, in accordance with the procedure governing transactions with related parties adopted by the Company and from time to time in force;
- (d) with regard to transactions of greater significance to be implemented by the Company with a related entity, in addition to the activities described in paragraph (c), points (i), (ii) and (iii):
 - (i) is involved in the negotiation stage and scrutiny stage through deliver of a complete and timely information flow; and
 - (ii) has the right to request information and make observations to the delegated bodies and the persons in charge of communication of negotiations and

scrutiny. The provisions of paragraphs (c) and (d) also apply to transactions reserved to resolution of the shareholders' meeting and to any framework resolutions.

In carrying out its duties, the RPT Committee can have access to information and to corporate functions as required for the fulfilment of its duties, and may avail itself of external consultants provided that such external consultants are not in situations that compromise their independent judgment.

The RPT Committee submits an expense budget once a year to the Board of Directors not later than the date of approval of the draft annual financial statements. By resolution dated 3 February 2016 the Board of Directors, upon proposal of the RPT Committee, has assigned to the Committee an expense budget for the performance of the Committee's activities in 2016.

The RPT procedure can be consulted on the Company's website www.mzb-group.com in the section "*IR/Corporate Governance/Corporate documents*", which is incorporated herein by reference for any additional detail.

As of the Report Date, the Board of Directors has not deemed necessary to adopt, in addition to the RPT Procedure and the disclosure requirements provided for by art. 2391 of the Civil Code, a specific procedure for the identification and management of situations in which a Director has a personal interest on his own behalf or on behalf of third parties.

12 APPOINTMENT OF AUDITORS

Pursuant to art. 24 of the Bylaws, the standing and alternate auditors are appointed by the Shareholders' Meeting, in compliance with applicable pro tempore regulations regarding gender balance, on the basis of lists submitted by shareholders in compliance with the law and regulations from time to time in force as set forth in art. 148 of the Consolidated Law on Finance and 144-*quinquies* and following of the CONSOB Issuer Regulations, according to which, candidates must be listed in numerical order and must total no more than the number of members to be elected.

Lists presenting three or more candidates must contain candidates of both genders, so that at least one third (rounded upwards) of the standing auditor candidates and at least one third (rounded upwards) of the alternate auditor candidates belong to the less represented gender on the list.

The right to submit lists is vested only in shareholders who, alone or together with other shareholders, hold shares representing at least 2.5% of the capital or such different percentage of the share capital as established by the law and regulations in force. Each shareholder is entitled to submit or concur in the submission of a single list and each candidate can only be included in a single list, under penalty of ineligibility.

Together with each list, within the terms for submission provided by the law and regulations in force, the following must be filed: declarations by which individual candidates accept their nominations and certify, under their own responsibility, the inexistence of causes of ineligibility and incompatibility, as well as the existence of the requirements prescribed by the law and By-laws for their respective offices.

Any list that does not satisfy the above requirements will be deemed not submitted.

Each candidate's declaration must be filed along with a curriculum vitae summarising his main personal and professional characteristics and a list of offices as director and auditor held by each candidate in other companies.

The submission, filing and publication of the lists are subject to the provisions of law and regulations from time of time in force. The lists are divided into two sections: one for candidates for the office of standing auditor and the other for candidates for the office of alternate auditor.

Each entitled party may cast its vote for one list only.

The statutory auditors are elected as follows:

- (a) two standing members and one alternate member are taken from the list obtaining the highest number of votes in the shareholders' meeting, based on the numerical order in which they appear on the list;
- (b) the remaining standing member - who will assume the position of Chairman - and the other alternate member are taken from the list that obtains the highest number of votes in the shareholders' meeting and is not connected in any way, directly or indirectly, with those who submitted or voted for the list obtaining the highest number of votes. Both members are selected on the basis on the numerical order in which they appear on the list. In the event that several minority lists have obtained the same number of votes, the eldest candidate shall be elected, both for standing and alternate auditor;
- (c) in the case of the submission of one list only, the Board of Statutory Auditors in its entirety is drawn therefrom, provided that it has obtained a simple majority of votes, subject to compliance with applicable regulations concerning gender balance.

If, by applying the above described procedures, the composition of the standing members of the Board of Statutory Auditors does not comply with applicable pro tempore regulations regarding gender balance, replacements shall be made from among the candidates for standing auditor in the list that has obtained most votes on the basis of the numerical order in which they appear in the list.

In the event that the required legal and statutory eligibility requirements fail to remain in place, the auditor ceases his office by operation of law .

It is understood that Chairman of the Board of Auditors shall a auditor appointed by the minority of shareholders, and that the composition of the Board of Statutory Auditors shall comply with applicable pro tempore regulations regarding gender balance.

When the Shareholders' Meeting is required to appoint standing and/or alternate auditors in order to integrate the Board of Statutory Auditors, the following procedure shall apply:

- if it is necessary to replace auditors elected from the majority list, the appointment shall be made by way of relative majority vote without the need of a list;
- if it is necessary to replace auditors elected from the minority list, the Shareholders' Meeting will replace them by way of relative majority vote, choosing them where possible from among candidates on the same list of the auditor to be replaced, i.e. the minority list that obtained the second highest number of votes.

If the application of these procedures, for whatever reason, does not allow the replacement of the auditors designated by the minority, the Shareholders' Meeting shall proceed by way of relative majority vote, upon submission of candidates by shareholders who, alone or together with others, hold shares with voting rights that account for at least the percentage indicated above in relation to the procedure for submission of lists; however, in determining the results of such vote, no account will be taken of the votes of shareholders who, on the basis of the

communications made pursuant to the applicable laws, hold, even indirectly or jointly with other shareholders party to a shareholders' agreement relevant for the purposes of art. 122 of Legislative Decree 58/1998, a relative majority of votes in the Shareholders' Meeting, as well as of shareholders who control, are controlled by or are under the common control of the same.

The replacement procedure described above must, in any case, ensure compliance with applicable regulations regarding gender balance.

Resigning auditors may be re-elected.

The Bylaws do not provide for the election of more than one minority auditor.

The resolutions, both at ordinary or extraordinary Shareholders' Meetings shall be taken by the majority required by law.

The Ordinary General Shareholders' Meeting must be convened at least once a year to approve the annual financial statements, within one hundred twenty days after the close of the financial year or within one hundred and eighty days, since the Company is required to prepare consolidated annual financial statements or, in any case, when it is required by particular needs concerning the structure and purpose of the Company.

The call of the shareholders' meeting is made within the time prescribed by the applicable laws and regulations in force from time to time by notice published on the Company's website, as well as the manner prescribed by applicable laws and regulations in force from time to time with a notice period of not less than the minimum required by law prior to the date set for the Shareholders' Meeting. Ordinary and extraordinary Shareholders' Meetings are held in a single call, with the majorities established by the law.

Persons entitled to participate and intervene in the Shareholders' Meeting are those who have the right to vote and their representatives in accordance with legal rules and regulations from time to time in force.

Under article 10 of the By-laws, those who are entitled to vote may be represented at the Shareholders' Meeting, in accordance with law, by proxy issued in the manner provided for by the law. Shareholders' Meetings are governed by the specific Shareholders' Meeting Regulations which were approved by the resolution of July 23, 2014 and are effective from the Date of Commencement of Trading.

The Shareholders' Meeting Regulations have been adopted in order to regulate the orderly and efficient conduct of Shareholders' Meetings and to facilitate exercise of shareholders' rights in compliance with the laws that enacted the European Community Directive 2007/36/EC (known as the Shareholders' Rights Directive) and the recommendations found in article 9 of the Corporate Governance Code.

Those who have the right to vote and the common representative of bondholders may ask for the floor on the topics under discussion only once, making comments and asking for
